An anecdote is related of a young preacher at a eity church, who had for his text a verse from the parable of the ter virgins, and in the course of his sermon explained: "That in old times it was customary, when the bridegroom and bride were coming, for ten virgins to go out and meet them, and escort them home-five of these virgins being male, and five females."

Several years ago a young English nobleman fig-ured in Washington. He had but a small supply of brains, although many titles, which last are apt to tickle the ear amazingly. Several ladies were in de-bate, going over the list-Lord so and so, Baron this and that, &c. "My fair friends," exclaimed the gallant Lieutenant N., "one of his titles you appear to have forgotten." ENJOY A LAUGH .- Who does not love to enjoy a laugh at times? Where is the man or woman that does'nt find it a relief to smile and be happy? And who is so dull but he cannot occasionally enjoy, right heartily, a well penned or a well related jest? Perhaps we have been blessed with an extraordinary pleasant disposition-and perhaps not; nexertheless,

It is now some years since the old styled hymns, riginally sung in the puritan churches, were laid aside for the improved poems of Dr. Watts and others. But we can recollect a good many stanzas that used to be "deaconed off," line by line, and sung by the gregation, which were emphatically amusing. gine, dear reader, a meeting full of people drawl-

ing out the following, for instance : "The race is not forever got To him who fastest runs; Nor the battle by those people Who shoot with the longest guns."

Now isn't that poetical? At least, there is a strong tincture of truth in these homely lines, which may be commended to our "fast" young men. The following lines addressed to the sun, chime very well with the preceeding, although of modern origin :

All half thou glorious Sun,
Bright as a new tin pan,
Thou roundest, fairest, purest source
Of bread and cheese to man." Then we have a touching allusion to the pomatum, or Macassar, which Aaron swabbed his whiskers

with, on a certain occasion, vide the following : "Tis like the precious ointment
Down Aaron's beard did go:
Down Aaron's beard it downward went,
His garment skirts unto."

The next couplet is a thrilling and masterly address to whales, vampires, sharks, tom-cod, halibut, scuppog, eels, carpies, et id omne genus—really a beautiful verse to sing in church:

The quotations above are very w

To the Farmer and Dealers in Agricultural Implements. DLEASE READ.—Having erected a good shop, with facilities not heretofore possessed by any in this state for manufacturing Agricultural Implements, I beg leave to announce that I am now properly under way with that business. I om ploy none but the best and most experienced mechanics, and work no material but the best. In this way I hope to promote the interest of the good mechanic, the interest of the farmer, the interest of our young and growing Agricultural State, and at the same time that interest which is foremost with all mankind—self. I have had twenty years' experience in the manufacturing hunness; I established the first shop, and made the first steel plow in the State of Wisconsin, in the dawn of her day of great agricultural improvement. I also made the first Reaping and Moving machine, and the first steel plow ever made in this find. Therefore, with my experience and a knowledge of the wants of the country, (which are different from most others.) I feel confident that I can and will do much for the interest of the agriculturists of this country; and in my efforts I trust I shall meet with a good share of patronage from the furmer, and all interested in this matter, and in the interest and development of the agricultural improvement of our State. I design, and have the der way, the manufacturing of

1600 CAST STEEL CALIFORNIA DEEP TILLER OR QUEEN OF THE WEST PLOWS.

The mould board, the landside and shear are manufactured of cast steel, making the plow run much lighter than any plow ever used in this country. Also,

GANG PLOWS, CULTIVATORS, HARROWS, FANA In addition to what I manufacture, I shall constantly be re-seiving implements from the best makers of the Eastern and Western States, amongst which are 500 CINCINNATI EAGLE STEEL & ROVER PLOWS. a shipment of which has just arrived. These plaws stand, is point of true merit and worth, altegether higher than any others in the great agricultural State of Ohio.

Please favor me with a call and see for yourself, and be convinced that I am publishing no humbing, but simply facts as they are, and that our young State can within itself already provide the farmer with implements interfer to none now in use.

Any article I manufacture will have all the latest improvements, and be finished in a workmanlike manner.

All kinds of agricultural implements and machines repaired on short notice, and in the best manner, and on reasonable terms.

OFFICE OF THE PANAMA RAIL-ROAD COMPANY, I NAW YORK, July 20, 1867.

The Panama Rail-Road Company takes this method of informing those interested in the Whaling bustness, of the advantages offered by the Railroad across the Isthmus of Panama, for the shipment of Oil from the Pacific to the United States, and for hending outlits and supplies from the United States, and for hending outlits and supplies from the United States, and for hending outlits and supplies from the United States, and for bending outlits and supplies from the United States, and for pending outlits and supplies from the United States, and for pending outlits and supplies from the United States to Panama.

The Railroad has been in regular and successful operation for more than two years, and its capacity for the transportation of every description of merchandise, including Oil, Provisions, &c., has been fully tested. The attention of several Captains of whaleship has recently been turned to the subject of shipping their oil from Panama to New York during the present esseen, and the Panama Rail-Road Company has made arrangements to afford every facility which may be required for the accomplishment of this important object. A Piley, 450 feet long, has been built in the bay of Panama, to the end of which Preight Cars are run to receive cargoes from lighters or vessets lying alongside, and deliver the same alongside of vessels at Applic wall. Vessels of from 200 to 800 tons can lie at the Preight Cars are run to receive cargoes from lighters or vessels lying alongside, and deliver the same alongside of vessels at Applic wall. Vessels to and from Aspinwall are fast-sailing bright belonging to the Rail-Road Company, and the Company is propared to receive di at Panama and deliver it in New York, to while the capacity of the casts, without allowing for wanting.
